PROGRAMME

Canadian Anthem

English version

O Canada!
Our home and native land!
True patriot love in all of us command.
With glowing hearts, we see thee rise,
The True North strong and free!
From far and wide,
O Canada, we stand on guard for thee.
God keep our land glorious and free!
O Canada, we stand on guard for thee.
O Canada, we stand on guard for thee.

French version

Ô Canada! Terre de nos aïeux,
Ton front est ceint de fleurons glorieux!
Car ton bras sait porter l'épée,
Il sait porter la croix!
Ton histoire est une épopée
Des plus brillants exploits.
Et ta valeur, de foi trempée,
Protégera nos foyers et nos droits.
Protégera nos foyers et nos droits.

Bilingual version

O Canada! Our home and native land!
True patriot love in all of us command,
Car ton bras sait porter l'épée,
Il sait porter la croix!
Ton histoire est une épopée
Des plus brillants exploits,
God keep our land glorious and free!
O Canada, we stand on guard for thee.
O Canada, we stand on guard for thee.

Leo Ekhaguere is Canadian Centre for (CACERMDI) as Incorporated. He holds two Geology and another in degree with distinction in overseas.

Leo in Canada has obtained a Administration and another Administration (Both from Management and studied Cybersecurity at the obtaining an overall grade of Security Plus Certified.

Osagie "Leo" Ekhaguere
President, CaCeRMDI

He was a doctoral student in Canada and served as State the Ogun State Raw Abeokuta, Nigeria. This department of Industrial Promotions of the then Ogun State Ministry of Commerce and Industry.

President and Founder of the Raw Materials Display Inc. well as Lions Security bachelor's degrees, one in Physics as well as a Master's Radiation Physics from

Diploma in Business Diploma in Network the Canadian Institute of Technology- CIMT). He also University of Toronto A plus. He is CompTIA

Physics before migrating to Scientific Officer &Head of Materials Display Centre in Centre was a unit under the

In recognition and appreciation of his dedication and commitment, upwardly mobile and visionary approach to administrative matters, professionalism in service and public spiritedness, and distinguished professional contributions to public service administration in Nigeria, he was graciously awarded the highest service award of fellow of the Institute of Corporate Administration of Nigeria.

Leo observed that there is no Raw Materials Display Centre anywhere in Canada and he created one due to his love for raw materials continual availability and experience.

He is renowned as one who used social media to showcase the raw materials strength of Ogun State, Nigeria to the world and significantly attracted lots of investors to the State.

CACERMDI is a federal not-for-profit corporation based in Prince Albert, Saskatchewan, Canada established primarily to disseminate essential information to prospective investors on the availability of industrial raw materials in each province and territory across Canada and in other parts of the world.

CACERMDI hopes to have portions of its physical Centre dedicated to a display of Industrial Raw Materials from other countries of the world. Thus, helping governments around the world from provincial governments to territorial governments across Canada as well as States across Nigeria and locations across the World, in general, showcasing the raw materials' strength of these various places thereby increasing raw materials visibility and economic prosperity for all.

Leo is happily married and strongly supported by his wife, Omotola and children: Ireoluwa; Oluwadunmininu and Oluwafikayomi.

Mayor Greg of the City has been a 33 years. He has over that period of

Mayor Dionne was 2012 (3 years), re-2016 (4 years), and re-on November 9, 2020

Mayor Dionne is numerous local capacities such as Vice Albert Board of Police Destination

Fund, Airport Advisory Committee, Prince Albert Exhibition Association, Aquatic and Arenas Recreation Facility Steering and Fundraising Committees, and Northern Lights Community Development Corporation, to name a few.

He has shown leadership through the 2016 water crisis, the 2017 budget crisis, and COVID-19, and has worked diligently with the provincial and federal governments to secure a new multi-recreational facility for the City of Prince Albert; worked with the provincial government to secure a new multi-story addition to Victoria Hospital; and introduced a \$1 million dollar partnership with Husky Oil which brought the City the completion of the Rotary Trail, a community billboard, and a new spray park in Kinsmen Park.

The Mayor's goal for the next four years is to continue to fight crime, work on economic development and bring back the forestry industry to the City of Prince Albert.

His Worship, Greg Dionne
Mayor, City of Prince Albert

Dionne is the 29th Mayor of Prince Albert and resident of the City for watched this City grow time.

elected on October 24, elected on October 26, elected for a third term (4 years).

Overall Objective of CaCeRMDI

About us

The Canadian Centre for Raw Materials Display Inc (CaCeRMDI) is the first raw materials exhibition corporation in the world, a not-for-profit federal corporation, established to disseminate essential information on raw material availability in Canada and other parts of the world thereby increasing raw materials visibility for investors, researchers, entrepreneurs and the public.

CaCeRMDI researches, collects, conserves and displays relevant industrial raw materials.

Mission and Vision Statement

The core mission of the Canadian Centre for Raw materials Display Inc (CaCeRMDI) is to make the raw materials supply chain seamless. CaCeRMDI is envisioned as a global platform towards becoming a global platform for connecting suppliers with end users of raw materials. CaCeRMDI pursues its mission based on the core values of Trust, Improvement, Integrity, Professionalism, and Safety (TIIPS).

The objectives of CaCeRMDI include:-

1. Identify and collect Raw Materials for display
2. Review from time-to-time raw materials availability and utilization
3. Help source, select and advise on adaptation of machinery and processes for raw materials utilization
4. Encourage local fabrication of equipment and machines for processing
5. Advise on and devise awards for industries that achieve any breakthrough or make innovations and inventions
6. Organize workshops, symposia and seminars designed to enlighten people on new development and solutions discovered from time to time.
7. Consider and advise on any other issue capable of enhancing the objectives of industrializing the whole world.

Mode of Display

Note

CaCeRMDI is home to collections of conserved basic industrial raw materials in Canada and in the world.

CaCeRMDI's research findings will continue to be made available to the public

Mode of Display

CaCeRMDI carries out its exhibition or display of raw materials in an eye-catching manner in two modes.

The first is an on-site display at our head office, while the Centre also actively engages in running a mobile display when invited to public functions on special request.

Charity engagements

CaCeRMDI supports raw material producers around the world, especially in third-world countries, by providing basic amenities such as boreholes for portable water and supplies of solar inverters for electricity generation, amongst others.

Osagie "Leo" Ekhaguere, President
Canadian Centre for Raw Materials Display Inc.
1135 Central Avenue
Prince Albert, SK S6V 4K7

Dear Mr. Ekhaguere,

I write to personally thank you for your invitation to the First International Conference and Exhibition for Raw Materials-ICERMs 2023 in Prince Albert.

I want to extend my best wishes and sincere congratulations on hosting your First International Conference and Exhibition. This momentous occasion is a testament to the remarkable progress the Canadian Centre for Raw Materials Display Inc. has made this year under your leadership. The Centre's Essay and Quiz contest highlights your commitment to education, innovation, and inclusion of the next generation in Saskatchewan's future and our contribution to the global community.

I am certain this Conference and Exhibition will not only display the numerous raw materials Saskatchewan has to offer, but it will be an excellent platform for exchanging ideas and making connections across the globe. I know the Canadian Centre for Raw Materials Display Inc. will continue leading discussions and facilitating solutions on the Global Shortage of Raw Materials.

Once again, my personal congratulations to you on this remarkable milestone and my best wishes for a successful Conference and Exhibition.

Sincerely,

Randy Hoback, MP
Prince Albert

Investment Opportunity

Are you interested in investments opportunity that abound in Saskatchewan?

This is your chance!!

The advantages of starting a business in Saskatchewan are many, including location, low taxes and high incentives, solid infrastructure and varied natural resources/raw materials.

Profile of Saskatchewan

Location: Saskatchewan is located in Western Canada, bordered on the west by Alberta, on the north by the Northwest Territories, on the east by Manitoba, to the northeast by Nunavut, and on the south by the United States (Montana and North Dakota). Saskatchewan and Alberta are the only landlocked provinces of Canada. Saskatchewan, Manitoba and Alberta are the only three prairie provinces.

Total Area: 651,036 square kilometers (251,366 sq mi) of which 591,670 km² (228,450 sq mi) is land and 59,366 km² (22,921 sq mi) is water accounting for nearly 10% of Saskatchewan's total area.

Capital City: Regina

Municipalities and Cities: Saskatchewan has 774 municipalities and 16 cities including Regina, Saskatoon, Prince Albert, Moose Jaw, Yorkton, Swift Current, North Battleford, Estevan, Weyburn, Melfort, and the border city Lloydminster.

2023 Estimated Population: 1,221,439.

Languages: English

Climate: There are four climatic seasons in Saskatchewan: spring (mid-March to late May), summer (early June to mid-September), fall (or autumn) (mid-September to late October) and winter (early November to mid-March). Understanding the weather will help you dress appropriately. Saskatchewan's climate often experiences extreme temperatures. The city of Estevan in Saskatchewan is reputed as the sunshine capital of Canada.

Natural Resources: Saskatchewan's natural resources include agricultural land for grains and

Investment Opportunity

livestock, forests for timber, minerals, crude oil, fish and wildlife.

Agricultural Products: grains, livestock and timber (renewable resources)

Mineral Resources: potash, uranium, coal and petroleum (non-renewable resources)

Industries: Agriculture, Forestry, Manufacturing and Minerals Industries

Investment opportunities in Saskatchewan

Saskatchewan currently provides one-third of the world's potash and one fifth of the world's uranium. You can invest in fertilizer supply from Saskatchewan to any part of the world and you can also invest in uranium exportation to countries where their regulations are strong to handle clean electricity generation.

Saskatchewan supplies more than one third of the total global durum wheat production and is the largest exporter of lentils and dry peas in

the world.

Also, aside being a world leader in agriculture, Saskatchewan is the fifth-largest oil producer in North America.

Saskatchewan manufacturers continue to produce a wide range of different goods exported to markets within and outside of Canada.
